$\qquad$ Period: $\qquad$ Date: $\qquad$

## Stem and Leaf Plots bell work

## 1. Complete the following statement.

a. If the number of values in the data set is $\qquad$ then the median is the average of the two middle values.
b. The range is found by finding the difference between the $\qquad$ .
2. Write $T$ for true or $F$ for false.
a. Stem and leaf plots have data placed into order from highest to lowest.
b. The back-to-back stem and leaf plots are used to compare two distributions side-by-side.

Multiple choices
3. Find mode of the following data set $\begin{array}{llllllll}65 & 72 & 74 & 74 & 78 & 78 & 88\end{array}$
a. 74
b. 78
c. $\quad 74$ and 78
4. The marks of ten students in a math test are given below:
$\begin{array}{llllllllll}2 & 12 & 22 & 23 & 32 & 42 & 45 & 45 & 65 & 76\end{array}$. The range of this set of data values is:
a. 45
b. 42.5
c. 74
5. The median for this data set $\begin{array}{lllllllllll}9 & 10 & 14 & 17 & 18 & 26 & 40 & 41 & 50 & \text { is: }\end{array}$
a. 18
b. 41
c. $\quad 24.5$
$\qquad$
$\qquad$ Date: $\qquad$

## Stem and Leaf Plots Bell work

## ANSWERS

1. Complete the following statement.
a. If the number of values in the data set is even, then the median is the average of the two middle values.
b. The range is found by finding the difference between the two extremes.
2. Write $T$ for true or $F$ for false.
a. Stem and leaf plots have data placed into order from highest to lowest.
b. The back-to-back stem and leaf plots are used to compare two distributions side-by-side.

## Multiple choices

3. Find mode of the following data set $\begin{array}{lllllll}65 & 72 & 74 & 74 & 78 & 78 & 88 .\end{array}$
a. 74
b. 78
c. $\quad 74$ and 78
4. The marks of ten students in a math test are given below:
$\begin{array}{llllllllll}2 & 12 & 22 & 23 & 32 & 42 & 45 & 45 & 65 & 76\end{array}$. The range of this set of data values is:
a. 45
b. $\quad 42.5$
c. 74
5. The median for this data set $\begin{array}{lllllllllll}9 & 10 & 14 & 17 & 18 & 26 & 40 & 41 & 50 & \text { is: }\end{array}$
a. $\quad 18$
b. 41
c. $\quad 24.5$
