## Scatter plots Assignment

Answer the following questions

1. What are Scatter plots used for?
2. Define Correlation.
3. What is Positive Correlation?
4. What is Negative Correlation?

To answer questions 5-6 use the following table that shows years of experience and Income (in thousands).

| Years of experience | $\mathbf{1}$ | $\mathbf{3}$ | $\mathbf{5}$ | $\mathbf{7}$ | $\mathbf{1 0}$ | 14 | 17 | 20 | 25 | $\mathbf{3 0}$ |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Income (in thousands) | 15 | 22 | $\mathbf{3 0}$ | $\mathbf{3 3}$ | $\mathbf{3 5}$ | $\mathbf{4 0}$ | $\mathbf{4 2}$ | $\mathbf{4 5}$ | $\mathbf{4 8}$ | $\mathbf{5 0}$ |

5. Draw a scatter plot of the data and draw in the line of best fit.
6. Is there positive, negative or no correlation?

What type of correlation positive, negative or no correlation is shown by each scatter plot? (7-9)
7.

8.

$\qquad$ . $\qquad$ . _.
$\qquad$ Period: $\qquad$ Date: $\qquad$

## Scatter plots Assignment

Fill in the Blanks (10-12)
10. When there is no linear dependency between the variables then there is $\qquad$ correlation.
11. A $\qquad$ is a straight line that represents the data on a scatter plot in best way.
12. $\qquad$ Correlation is a correlation in which points are located closer to one another on the line.

To answer the question 13-15 use the following table.

| $x$ | 1 | 2 | 1 | 3 | 2 | 4 | 3 | 4 | 5 | 6 | 5 | 6 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| $y$ | 20 | 25 | 30 | 30 | 35 | 35 | 40 | 45 | 45 | 55 | 55 | 65 |

13. Draw a scatter plot of the data and draw in the line of best fit.
14. Is there positive, negative or no correlation?
$\qquad$ .
15. What is the equation of line of best fit?

|  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |

$\qquad$ Period: $\qquad$ Date: $\qquad$

## Scatter plots Assignment

## ANSWERS

Answer the following questions

## 1. What are Scatter plots used for?

Scatter plots are used to plot data points on a horizontal axis ( $x$-axis) and a vertical axis ( $y$-axis) in the effort to explain to what extent one variable is affected by another variable.

## 2. Define Correlation.

The relationship between two variables is called their Correlation.

## 3. What is Positive Correlation?

When increase in value of one variable increases the value of other variable it is known as Positive Correlation.

## 4. What is Negative Correlation?

When increase in value of one variable decreases the value of other variable it is known as Negative
Correlation.

To answer questions 5-6 use the following table that shows years of experience and the Income (in thousands).

| Years of experience | 1 | 3 | 5 | 7 | 10 | 14 | 17 | 20 | 25 | 30 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Income (in thousands) | 15 | 22 | 30 | 33 | 35 | 40 | 42 | 45 | 48 | 50 |

5. Draw a scatter plot of the data.
6. Is there positive, negative or no correlation?

## Positive Correlation

$\qquad$
$\qquad$ Date: $\qquad$

## Scatter plots Assignment

What type of correlation positive, negative or no correlation is shown by each scatter plot? (7-9)
7.

Positive Correlation
8.

No Correlation
9.

Negative Correlation

Fill in the Blanks (10-12)
10. When there is no linear dependency between the variables then there is No correlation.
11. A Line of best fit is a straight line that represents the data on a scatter plot in best way.
12. Strong Correlation is a correlation in which points are located closer to one another on the line.
$\qquad$ Period: $\qquad$ Date: $\qquad$

## Scatter plots Assignment

To answer the question 13-15 use the following table.

| $x$ | 1 | 2 | 1 | 3 | 2 | 4 | 3 | 4 | 5 | 6 | 5 | 6 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| $y$ | 20 | 25 | 30 | 30 | 35 | 35 | 40 | 45 | 45 | 55 | 55 | 65 |

13. Draw a scatter plot of the data and draw in the line of best fit.
14. Is there positive, negative or no correlation?

Positive Correlation
15. What is the equation of line of best fit?
$\mathrm{m}=\frac{\text { change in } y}{\text { change in } x}$

Line of best fit
$\mathrm{m}=\frac{60-30}{6-2}=\frac{30}{4}=\frac{15}{2}$
$y=m x+c$
$60=\left(\frac{15}{2}\right)(6)+c$
$c=15$
$y=m x+c$
$y=\frac{15}{2} x+15$
$2 y=15 x+30$.
